2K PU Elastic

Modular professional system for sealing of elastic floors

Waterborne 2K PU-coating

to renovate design floors, PVC and linoleum

» 2K PU Elastic «

Item Numer 9600

SAICOS 2K PU Elastic is a waterborne sealer based on polyurethane to renovate surface protection and to be used as an initial coat on design floors, PVC and linoleum.

This hard-wearing coating offers a very good adhesion as well as high elasticity. It is highly resilient, abrasion-resistant and offers a better resistance against common household disinfectants.

Due to its excellent leveling SAICOS 2K PU Elastic is easy and safe to use. The high solid content reduces dirt-attraction and reduces maintenance efforts.

Glossgrade: Matt

» **Hardener 2K absolutely necessary!**

- » **restoration instead of exchange**
- » **easy and safe to use**
- » **very good adhesion & high elasticity**
- » **DIBt approval Z-157.20-208. The DIBt approval is also effective in combination with each of the supplements.**
- » **DIN 68861 – Part 1**
- » **slip resistance R9**
- » **1 L = approx. 10 m² (1 coat)**

›The supplements‹

Hardener 2K

Item Numer 9608

By adding the *SAICOS Hardener 2K* the surfaces dries quicker – Especially under difficult conditions e.g. high humidity.

Treated surfaces are resilient much quicker and more abrasion-resistant in general.

Anti-Slip R10

Item Numer 9616

A major requirement for objects can be fulfilled with the *SAICOS Anti-Slip R10* supplement.

Especially suitable for staircases, projects or surfaces with higher Anti-slip properties.

Slow Down

Item Numer 9619

Extends the processing ability of the coating, especially under critical site conditions with high temperatures and low humidity.

All possible combinations at a glance:

›Basic Cleaner‹

Item Numer 8124

SAICOS Basic Cleaner for design flooring, PVC & linoleum is a concentrated intense cleaner for all water-resistant, alkali-sensitive floor coverings. Especially for design floors, PVC and linoleum. Also suitable for natural- or artificial stone, limestone, clay, brick and natural rubber. Also removes strongest dirt.

The use saves time due to its short exposure time.

Loosend dirt is easy to remove.
Also suitable for cleaning machines.

- » **for all water-resistant, alkali-sensitive floor coverings**
- » **short exposure time**
- » **removes hardest coatings**

One maintenance for all surfaces

from daily maintenance cleaning up to refreshing

›The maintenance‹

Ecoline Wash Care

Item Numer 8101Eco

Solvent-free concentrate for **regular maintenance cleaning**.

Cleans gently and thoroughly, streak-free.

Ecoline Magic Cleaner

Item Numer 8125Eco

Solvent-free concentrate for **intensive cleaning**.

Removes nicotine, grease and dirt films, e.g. in the bathroom and kitchen.

Ecoline Refresher

Item Numer 8106Eco

Low-solvent concentrate for **care and regeneration**.

For a beautiful, clear appearance. Regenerates and refreshes.
