## CUSTOMISED SOLUTIONS

We supply innovative solutions, worldwide, for both flooring and other wood-processing industries. In addition to oxidative and UV-curing hardwax oil systems we offer water-based coatings for a variety of industrial applications. We always research and develop with an eye to the future to keep our products both environmentally and economically in line with best available technology.

Naturally all systems are tested and adjusted in our own technical department by application engineers to check their properties while taking existing machinery into account. A care-system tailored to all industrial products completes our offer to be a competent and experienced partner for the industry.

To us **SPECIFYING TARGETS** means to create a profile of requirements for the final product and observe the market.

---

We **SUPPORT** you and your project from creating mastersamples under real production conditions to designing or optimizing present machinery.

---

Our application engineers finally help you to **REALIZE** your project by assisting in first-time productions to support your staff.

# INTERIOR COATINGS

Industrial Hardwax-Oils and lacquers for:  
flooring, paneling, ceiling and furniture

## SPECIFY TARGETS

# EXTERIOR COATINGS

Industrial finishes for:  
decking, fencing, cladding or furniture

# DESIGN AND PROTECT INDUSTRIALLY

Layout and design are getting more important every day. Our transparent or opaque stain- and oil systems offer versatile combinations and help to have your finger on the pulse of time. But design only is not enough. Get the ideal protection with one of our industrial oil- or lacquer systems.

## Design

## Protect

Premium Hardwax-Oil systems  
UV, hybrid, oxidative

Lacquer systems  
UV, physical drying

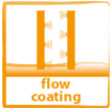

# DESIGN AND PROTECT INDUSTRIALLY

Wood itself is a versatile raw material. So are its areas of use outside. Cladding, fences or decking nowadays are an important part of nearly every private residential building. Transparent and opaque industrial oils/lacquers offer the perfect long-term protection for end-users and are very easy to maintain.

# THINK INDUSTRIAL – THE COMMON JOURNEY TO A FINAL PRODUCT

In cooperation with our partners we all know that **quality** is the most important stage on **our common journey to a final product**. Nevertheless it is important to produce efficiently to market the finished product.

Our application engineers **support** and train on the use of SAICOS’s industrial coating systems to ensure a safe and **cost-effective** production.

We assist not only with designing colourshades but also with marketing the final product by considering current technical standards and certifications.

## PLAN YOUR TARGETS

## PRESERVING VALUES

with SAICOS DIY-Products

Like in other industry sectors the best coating may require the correct cleaning & caring. To make this easy for end-consumers and professionals SAICOS provides clean, care and renovation products for all its industrial coatings.
